PROFESSIONAL SUMMARY

Full-stack .NET Software Engineer with 4+ years of experience building and maintaining scalable web applications across the .NET, Angular, and Knockout.js stack. Currently a Senior Software Engineer at Impetus Technologies, working full-stack on a US payroll platform serving 20,000+ employers, including leading the end-to-end integration of Zayzoon (on-demand pay). Strong background in SQL, DevOps (Azure Pipelines, Git), and Agile delivery, with a track record of independently owning features from requirements through deployment.

EMPLOYMENT DETAILS

IMPETUS TECHNOLOGIES (JAN 2025 – PRESENT)

Designation: Senior Software Engineer

Project: IRIS (US Payroll Application)

- Worked as a full-stack developer across the entire application lifecycle — front-end, back-end, and API layers — for a US-based payroll platform.
- Developed and maintained functionality using VB.NET and C# across legacy and new modules of the platform.
- Built and consumed C# Web APIs to support payroll processing and data integration.
- Delivered front-end features using Knockout.js, the application's core front-end framework.
- Led the end-to-end integration of Zayzoon (on-demand pay) into the payroll platform, scaling the feature to serve 20,000+ employers and several lakh employees.
- Collaborated with cross-functional teams to gather requirements, implement features, and resolve defects in an Agile environment.

Technologies & Tools: VB.NET, C#, Web API, Knockout.js, Angular, SQL

QUINNOX CONSULTANCY PVT LTD (OCT 2021 – JAN 2025)

Designation: Software Engineer

Project 1: CRE (Corporate Real Estate)

- Delivered end-to-end application development for comprehensive waste management services.
- Built and optimized scalable .NET Core and Angular solutions for garbage collection, recycling pickup, and dumpster rental services.

Project 2: Annual Landfill Review (ALFR)

- Automated exporting and analysis of Excel documents with integrated SQL queries.

Technologies & Tools: .NET Core 8, C#, JavaScript, SQL, Azure, MVC, HTML5, CSS3

Key Responsibilities:

- Full SDLC participation from requirement gathering to deployment.
- Development and enhancement of MVC architecture-based applications with Angular for interactive front-end development.
- Created and optimized SQL queries, views, stored procedures, and functions.
- Implemented DevOps practices using Azure Pipelines and Git for CI/CD workflows.
- Collaborated with cross-functional teams for defect fixes, enhancements, and new feature implementation.

TECHNICAL SKILLS

- **Back End:** .NET Core, .NET MVC 8, Web API, VB.NET, SQL, Stored Procedures, ADO.NET, Entity Framework, Windows Forms, LINQ
- **Front End:** JavaScript, HTML5, CSS3, Angular, Knockout.js
- **DevOps Tools:** Azure DevOps, Git

- **Programming Languages:** C#.NET / LINQ, VB.NET, Java
- **Development Tools:** Visual Studio (2017/2019/2022), VS Code, Microsoft SQL Server, Microsoft Azure

EDUCATION

Nitte Meenakshi Institute of Technology

MCA (Master of Computer Applications), CGPA 8.43 | 2019 – 2021 | Bengaluru, India

PERSONAL TRAITS

- Self-motivated and results-driven with excellent time management and multitasking skills.
- Adept at adapting to new tools and technologies in dynamic environments.
- Strong decision-making and problem-solving skills.
